RO antiscalant BimuroPro 8X

Technical Date Sheet

Product Description

BimuroPro 8X is a kind of 8 times concentrated scale inhibitor which can control the formation of calcium carbonate, calcium sulfate, barium sulfate, etc..

It can prevent the scaling of calcium carbonate when LSI reaches 3.

BimuroPro 8X applies to all major reverse osmosis membranes.

No adverse effects on the environment, especially suitable for the district where has special requirements on wastewater discharge.

Specification

Parameter	Specification
Appearance	Clear colorless or light yellow liquid
Specific gravity	1.2±0.5
pH(5% water solution)	2.5±0.5
Stability	Extremely stable
Storage temperature	≥-12°C

Adding and controlling

BimuroPro 8X can be diluted 11 times and add.The operation parameters of the specific dosing ratio depends on the water quality and membrane system.You can ask dosing software or technical personnel determined.

Storage

Do not touch eyes and skin.More information please see the MSDS.

Document provided

TDS,COA,MSDS,B/L,Packing list.

Delivery information

Packing:Conventional packaging for 25kg plastic barrels or IBC barrels. If you have special needs, please contact your sales consultant.
